Aim

Our service aims to promote good nutrition and healthy food habits and attitudes to all children and families at the service. We also aim to support and provide for children with food allergies, dietary requirements or restrictions, and specific cultural or religious practices.

Implementation

Educators will ensure they provide adequate and sufficient food and beverages to each child, and that they are nutritious, healthy and meet each child’s individual dietary needs. They will also promote healthy food options.

The Nominated Supervisor, educators, staff, volunteers and students will:

- ensure children have access to water and offer them water regularly during the day
- ensure children are offered foods and beverages throughout the day that meet their nutritional and developmental needs and any specific dietary requirements. These requirements may be based on written advice from families (eg in the enrolment form) or as part of a child’s medical management plan
- provide a variety of foods that take into account each child’s culture and religion
- ensure routines are flexible enough so that children who do not eat during routine meal or snack times, or who are hungry, are provided with food. Educators will not force children to eat food they do not like or more than they want
- ensure food is consistent with the Government’s -
  
  
  and/or

- encourage families to provide healthy food for their children at home which is consistent with the Australian Dietary Guidelines
- provide food that is safe and prepared hygienically by following the relevant procedures set out in the Health, Hygiene and Safe Food Policy
- provide food and beverages that minimise the risk of children choking

*Respect, Caring, Resilience, Love of Learning, Honesty, Positivity*
• provide and display a weekly menu of food and beverages based on the Australian Dietary Guidelines that accurately describes the food and beverages provided every day

• ensure meal times are relaxed, pleasant and timed to meet most children’s needs

• integrate learning about food and nutrition into the curriculum

• never use food as a punishment, reward or as a bribe

• model and reinforce healthy eating habits and food options with children during eating times.

**Educators and mothers who Breastfeed at the Service**

We support mothers who wish to breastfeed at the service by providing a quiet, relaxing place with a comfortable chair for mothers to breastfeed or express milk.

All reasonable efforts will also be made to support educators who continue breastfeeding their child when they (return to) work at the service. For example, an educator returning from maternity leave may have a meeting with the Nominated Supervisor to discuss:

- more flexible work arrangements
- the provision of lactation breaks for the educator to express milk. Educator to child ratios will not be compromised during these breaks.
- Expressed breast milk that is not used immediately will be refrigerated at 4°C.

If arrangements have been made for the educator’s child to come to the service to breastfeed and needs its nappy changed, the educator will ensure the nappy changing procedures outlined in Staying Healthy: preventing infectious diseases in early childhood education and care services are followed including the use of gloves, paper towels, placing nappy (sealed in plastic bag), gloves etc in bin, disinfecting nappy change area and washing hands.
