HOW TO UPDATE APPS ON AN iPAD

When a red circle with a number inside it appears on the corner of the App Store icon on your iPad, it means you have updates to one or more apps available. Here’s how to find and install them.

Tap the App Store icon on your iPad’s Home screen to launch the App Store app.

“Updates” to show all available updates for the apps you have installed on your iPad. Each update listed will explain what updates will be made to the app when downloaded. Now tap the “Update” button.

You will now be asked for your iTunes password or e-mail address and password. Type them into the relevant fields and click the “OK” button.
